

Best Ball Scramble Rules

1. **Choose a team captain.** This person will keep score.
2. **Every player tees off every hole.** As a team, decide which ball to use after every player has teed off. You must use 2 tee shots from each player.
3. After selecting the tee shot, put a tee close to the ball and hit from 6" anywhere around the tee. **Each player will hit future shots from the same best position until your team has finished the hole.**

Scorecard recommendation - mark down player names in each row and then mark the team score in the row of the player that hit the selected tee shot on that hole.
